### THE DAILY NEWS.

Largest Circulation,-THE DAILY NEWS BEING THE NEWSPAPER OFFICIALLY RE-COGNIZED AS HAVING THE LARGEST CIR-CULATION IN THE CITY OF CHARLESTON. PUBLISHES THE LIST OF LETTERS REMAIN-MNG IN THE POSTOFFICE AT 14 LEND OF HACH WEEK, ACCORDING TO THE PROVIS-JONS OF THE NEW POSTOFFICE LAW.

#### CHEAP ADVERTISING.

THE CHARLESTON NEWS, the circulation of which is about twice as large as that of any other paper published in South Carolina, is the best advertising medium for all business men. For persons who want situations or servants: who want houses or apartments, or have them to rent; who want or who offer board and lodg ing; who have lost or found articles of value. Tun News has no equal; and in order that all classes may have their wants supplied, we have adopted the following scale of CHHAP ADVER-ISEMENTS, payment for which must invariably se made when the order is given:

Advertisements of situations wanted by or offered to clerks, governesses, tutors, workmen, mechanics, house-servants, porters, shopboys, cooks and washers; board and lodging wanted or offered; apartments wanted or to lot; articles lost or found; houses, shops, offices and warehouses wanted or to let, and miscellaneous wants of all kinds.

For each insertion of advertisements of the Not exceeding THREE LINES or 20 words ... . 35 cents

Four Lines or 30 words....40 FIVE LINES OF 40 words ..... 50 All advertisements to be inserted at these rates must be prepaid and delivered at THE

JOHN G. MILNOR & Co. will sell at 10 o'clock. at their store, desirable dry goods. THE DAILY NEWS PRICE CURRENT AND COM

MERCIAL CIRCULAR will be ready for delivery at nine o'clock to-morrow morning. Busines number of copies containing their cards, should leave their orders at our counting room to-day. All orders for ten copies and over will be sup-plied at the rate of two and a half cents per

Business Envelopes .- THE NEWS JOB OF-FICE is now prepared to furnish good enveloped with business cards printed thereon, at \$4 per thousand. Send your orders. Every merchant and business man should have his card printed on his envelopes.

A Good School.-It is with pleasure that we call attention to the fact that Mr. Jos. T. Caldwell's school will be opened on the first Monday in October, and that a class for buys of about ten years of age will be formed. It is a most excellent school and should be pat-

THE PHILADELPHIA STEAMERS.—The steam ship J. W. Eyerman, Captain Hinckley, which arrived here from Philadelphia carly on yes-terday, had a large cargo of general merchandisc. In the hands of the agents, Messers. J. & T. Getty, the Philadelphia steam line is securing a large and remunerative patronage.

Chops IN Marion County .- The Crescent We have lately gone into the country and made particular inquiries in regar 1 to the cotton crop. The dry weather has stopped the growth of the plant, and the bolls are opening with unprecedented rapidity. Noirly the whole orop in this section will be got in by the last of October. There can be no doubt about the crop being very short."

"Lost FREIGHT." In our last issue, we copied from the Columbia Phoenix a list of freight, purporting to be a correct account of the goods destined for points on the Greenville and Columbia Railroad, which had been destroyed by the accident of last Saturday, on the South Carolina Railroad. We are authorized to state that the list is entirely incorrect. We make this statement lest consignees may be led, under a mistaken impression, to duplicate their

FALSE IMPRISONMENT-SUIT FOR DAMAGES. A short time since, a negro named Charles Lafayette was arrested for stealing a watch and chain from Mrs. Kinsman. While Lafayette was in prison, the watch and chain were found, and he was then discharged. He inelituted a suit against Mr. and Mrs. Kinsmar for false imprisonment-laying his claims at ninety-nine dollars. The case was called yesterday, before Magistrate Macket. Mr. Barrett Cohen appeared as counsel for the defe dants, and Mr. B. S. Tharin for the plaintiff. nounced that he would reserve his decision.

REDUCTION OF TELEGRAPH RATES. - The Western Union Telegraph Company has determined to make a general and material reduction in their tariff of rates, commencing on the first of October. The new system is worked out on the principle of "air line" distance from point to point. Heretofore the rate was computed by the zigzig route a dispatch was sent. These reduced rates will apply to private telegrams only, having no bearing whatever on points, for instance, Washington, Baltimore and Philadelphia, the rates will remain as they are at present, but to New York the tariff upon every message of ten words will be fifteen cents less than hitherto.

THE POLICE FORCE IN OTHER DAYS .- AS there has been a great deal of discussion about the police force of late, we think the following statement, containing some facts Telating to the force in other days, will be of interest. The force in 1848 consisted of one captain three lieutenants, eight sorgeants, eight corporals and one hundred and ten privates-one hundred and thirty in all. In 1852 there were one captain, seven lieutenants three orderly sergeants, eight sergeants, twelve corporals, id two hundred and thirty privates, three drummers and three fifers-total number two hundred and sixty-seven. They were armed with muskets and bayonets. In 1856 there were one chief, two captains, eis lieutenante, twenty sergean's, one hundred and fifty privates, four police agents, ten steeplemes, four daymen, and four musicians total number two andred and one, the cost per annum being \$102.190. In 1858 there were one captain, six ficuterants, twenty sergeants, one hundred and fifty privates, four police agents, ten en, four daymen and four musiciaus total number one hundred and ninety-nine. The cost per anoum, exclusive of fifty horses provided at the expense of the city, \$89,760.

Assault with Intent to Kill. -Mr. Charles Hamberg, a merchant, of Columbia, appeared before Magistrate Mackey, yesterday, and stated that on Tuesday night last, he, with a friend, went into a shoe house in this city to purchase goods, and a discussion ensued beween him and a clerk, when the clerk seized a chisel and told him that if he did not apologize he would kill him; and for this he prayed for the arrest of the clerk. The warrant was issued, the clerk arrested and required to give \$1000 security for his appearance at the State Court for trial.

PROLIFIC COTTON. - With the amount of inteligence now brought to bear on the improvement of the cotton plant and its culture, it is yield may be on soil so well suited to its growth as that of the South. Cotton growers themselves are surprised at the developments which are daily taking place in reference to the prolific character of the plant under good manipula-At the office of Messrs. George W. Williams & Co., merchants of our city, we yesterday noticed some rich specimens of the otton plant, which were striking for their prolific character and luxuriant growth. They were raised by Mr. John S. Mackrell, of Blackstock, Fairfield County, S. C. and the plants shown were grown on sandy soil, and had on them about 350 bolls each -those cultivated on rich soil being still more prolific. The seed used was of the Dickson variety, and the manure was the Carolina fertilizer.

of this month THE News stated that, "the young lady who was arrested yesterday afternoon, in Spring-street, by the police, was not the person sought for, but so closely resembled her that the mistake, though unfortunate and to be deeply regretted, was most natural."
Since then there has been considerable talk about the affair, and a number of statements have been circulated. These have come to the ears of Mr. L. T. Gardner, the policeman who arrested the young lady, and he has sent us

his version of the affair, as follows: On the morning of the 10th of September, a lady reported at the up-town stationhouse of the disappearance of her daughter, leaving at the same time her description, and requesting her arrest. An officer (not myself) was sent in search of her, but failed to find her. In the in search of her, but failed to find her. In the evening of the same day, four ladies passed the stationhouse, when this officer, it appears, recognized one of them as the missing lady. I was detailed to request her attendance at the stationhouse, which I did, and she reported in company with another lady, I walking a little distance behind. It was found that a mietake as to identity had occurred, which was satisfactorily explained, and the ladies departed.

CRUMBS .- A discussion, at the last meeting of Council, upon a petition from a party living in the upper wards to creet a wooden dwelling, revealed the fact that the ordinance adopted on December 19, 1849, providing that wooden buildings could be creeted upon the Neck for a definite period, will expire upon the 19th of this December. Parties who intend building in that section had better apply at once for licenses to do so.

We learn that Magistrate Bunch has gone to Columbia to "interview" Governor Scott in reference to his case.

investigation into the charges against the City Engineer was commenced yesterday afternoon.

It is reported that Alderman Voigt will at the next meeting of Council introduce a bill providing that the detectives shall not receive any portion of the fines imposed by the Mayor.

The committee on the Nicolson pavement have not reported yet. During the session of Council Tuesday night, several omnibuses passed and repassed the City Hall, creating a good deal of noise. It was shrewdly surmised that a party interested in having the pavement put down had hired the omnibuses to drive back and forth during the session, so as to disturb the members by the rolling over the stony streets, and thus convince them of the necessity of having the pavement.

It is understood that two of the Aldermen who, on Tuesday last, spoke upon the question of employing an engineer and a stenographer for the City Engineer Investigating Committee, deem their remarks of enough importance to be be published in the official proceedings The supporters of the amended Police bill claim that the city would save \$48 per day if the police force was reorganized as the bill

provided it should be. It is proposed by some loyal men to change the name of Secession-street to that of Dix, in honor of General John A. "if anybody hauls down the American flag shoot him on the

Elsewhere will be found a reply to the remark of Aldorman Mackey, made in Council Tuesday night, that "the Board of Firemasters

What has become of the 'Stevadore's biil?" is the question asked by the stevedores. We learn that during a recent row at Bruns wisk, Ga., between the white and black hands working on the Macon and Brunswick Rail-road, John Lannigan, of this city, was killed, and Joseph Lyons, of this city also, badly

wonuded. that seven thousand dollar claim of United States District Attorney, &c., Corbin's claim. The King-street plank road is completed as far as Shepherd-street.

Mrs. J. B. Doscher, who was struck by Constable Theodore P. Bunch, on last Saturday morning, is very ill, and it is feared she will

We learn that some of the friends of Magiatrate Bunch are circulating a petition to be sent to Governor Scott, praying that Wigistrate J. G. Mackey be removed from office. The fines imposed by the Mayor yesterday amounted to five dollars.

SUSPICIOUS CIRCUMSTANCES. Yesterday a colored man from Edisto Island went to Magis-trate Mackey and stated that about the last of August his father went fishing with another colored man who had been heard to threate his life. They did not return for several days and a search was made for them, and the body of the old man was found floating in the water. It was believed that he had met with foul play from his companion, and a magistrate was requested to hold an inquest, but refused to do so unless he was paid six dollars. The colored men not having that amount, buried the body without having an inquest held. The colored man wanted to know from Magistrate Mackey what steps he should take to prosecute the man he supposed had committed the murder. The magistrate gave him the necessary information, but stated that he could do nothing for him, the alleged crime having been committed out of his jurisdiction.

Jifen:

DEATH OF AN EDITOR.-We are pained to hear of the death in Conwayboro' on Saturday last of C. P. Belton Esq., the editor of the Horry News. Mr. Bolton Was a young man of good parts, and had the prospect of a successful career as a lawyer at the bar. He leaves a youthful and widowed bride to whom he had been married only a few weeks.

The City Fire Engines, &c.

TO THE EDITOR OF THE NEWS. In your issue of the 224 instant, among the dings of the City Council, you state that Alderman T. J. Mackey said that the Board of Firemasters had, in their mode of complying with the recent ordinance, seen fit to treat the Council with perfect contempt. This most excellent specimen of aldermani greatness sees fit for purposes of his own to construe matters as he pleases. It may be that he was chagrined because the committee of the Board of Firemasters insisted on a private interview with the Mayor, and said Alder-

man was requested to leave the Council room. Now, what is the true state of the case? Council passed this Mackey ordinance, by which the city has to pay \$10,800 additions for the support of six colored engine companies that cannot earn the sixteenth part of this amount, and, in doing this, one company was disbanded that has been in the department as an auxiliary for twenty years. This, however, was done I suppose, to strengthen this Alder-man-general in his future political career. Maybe it will. The Council had the power to pass the ordinance, and no disrespect was ever intended or offered. Immediately after the intended or offered. Immediately after the passage of the ordinance, several colored persons, unknown to the Chief, called at his residence and demanded the two engines—one belonging to No. 7 and the other used as a reserve. These engines, with all the city property belonging to the Fire Department, have always been held by the board, and not by the Chief. The demand we's refused ou the ground that no official communication had been given the board by the proper officer of the Chief received a communication from the Mayor, informing him of the passage of the ordinance, and sending by one of the paties the ratified ordinance. The demand was again refused by the Chief, and the Mayor informed he would be waited on the next day, which he was by the Chief and the chairman and vice of the board. A very triendly interview was held; the Mayor agreeing that what had been done was correct, and requesting that his communication should be laid before the board at its first meeting as official. This was done, and the board passed a resolution requiring the Chief and clerk to deliver over to the Mayor and Council all the engines, hose reels, hose and other articles held by them relating to the city engines. This was accordingly done by the Chief and clerk and no fault was found by the Mayor. Appended to the same resolution was one from the board giving (as their opinion) the value of the five engines and the two thousand feet of hose at \$4000. The engines and retls were valued at \$400 each, the same price paid by the Stonewall and Young America Companies, and the two thousand feet of hose at \$100 er from the board at 100 each, the same price paid by the Stonewall and Young America Companies, and the two thousand feet of hose at \$100 er from the clerk of the City Council? Certainly the Mayor did not think so. The board were not bound to receive the Mayor's communication so official, but did so from courtesy. It has always been customary for all official communications to be sent to the board from the clerk of the City Council passage of the ordinance, several colored per-

REVER AND AGUE.

FROM WEIGH MANKIND SUFFER over a large part of the globe, is the consequence of a diseased action in the system, induced by the poison-ous miasm of vegetable decay. This with the watery vapor from it.—

While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irrituing poison on the internal viscers and excreting organs of the body. The liver becomes torpid and falls to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys, and the stownesh sympathize with the liver, and become disordered also, Finally, the instinct of our organism, as it in an attempt to exuel the noxious infusion, concentrates the shote blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and runkes to the central organs with congestive violence. This is the Chill. But in this effort it falls. Then the Fever follows, in which the blood leaves the central organs and runkes to the surface, as it in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of attength to repeat the hopeless effort another day. These are the fits of paroxysms of Fever and Ague. Such constitutional disorder will of course under mine the health if it is not removed.

We have labored to and, and have found an anti-dot,

AYER'S AGUE CURE.

We have isbored to find, and have found an antidote,

AYEH'S AGUE CURE.

Which neutralizes this malarious poison in the
blood, and stimulates the liver to expel it from the
body. As it should, to it does cure this afflicting
disorder with perfect ortisity. And it does more,
or rather does what is of mere service to those subject to this infection. If taken in same it expesi'
it from the system as it is absorved, and thus keeps
those who une it free from its attacks; keeps the system in health although exposed to the disease. Consequently it not only cures, but protects from the
great variety of affections which are induced by this
malignent influence, such as itemitient fever, thill
Fever, Duob, or Masked Ague, Perfodical Headache,
or Billous Headache. Billous Fevere, heursigis,
Rheumatism, Gout, Bilndness, Toothache, Karache,
Otte Spleen, Hysicries, Colic, Pravlysis, and Painful
Affect ons if the Stomach and Rowels, all of which,
when arising from this cause, will be found to assume, more or less, the intermittent type. This
"AGUE CURE," removes the cause of these derangements and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and those
organs by decrees become habited to do this, their
office, of their own accord. Hence arises what we
term scolimatation. Time may accomplish the same
end, but often life is not long enough, or is sacrificed
in the attempt, while this "Aque Cure" does it at
once, and with safety. We have great reason to believe this is a surer as well as after remedy for the
whole class of diseases which are caused by the miasmatic intection, than any other which has been
discovered; and it has still another important adw'tage to the public, which is, has it is chesp as
well as good.

PREFARED BY

Dr. J. C. A YERL & CO., Lowell, Mass, ,

TOBACCO ANTIDOTE. Warranted to Remove all Desire

for Tobacco. It is Purely Vegetable and contains nothing Injurious.

The following is one of thousands of testimonishs that are daily received by the Manufacturer:

RICHMOND, VA., November 28, 1862.

DEAR FIR—The "Tobacco Antidote" prepared by you according to the receipt you have submitted to me, and the ingrecients of which I have examined, is purely vegetable, entirely har miless, and contains nothing in the least injurious. It is not desagreeable to the taste, and as a bome article, I hope you will neet with ready sale for it, and I believe that if the directions are followed, it will do all you claimed for it.

SSP Price 50 cents per Boy. The usual discount to the Traco.
